Love Your Planet

-\$40-

Green Action Centre planted seeds for change thirty years ago; with strong roots in the community, we remain committed to providing environmental education and green solutions for everyday living.

Celebrate connection to people, place and planet with your purchase of Hilary Druxman's handcrafted, sterling silver *Living Green* necklace, and inspire people to take action to live green and live well.

Proceeds support our work greening the lives of Manitobans at home, work and school.
