

Acknowledgements

We are extremely grateful to the many people in Manitoba who did one or more of the following during the course of development of the *Child- and Youth-friendly Land-use and Transport Planning Guidelines for Manitoba*: met with us about the Guidelines, participated in a workshop on the Guidelines, made comments by telephone or email on drafts of the Guidelines document or on the process being followed.

Responsibility for the content of this Guidelines document rests entirely with its authors, Richard Gilbert and Catherine O'Brien, and through them with the Centre for Sustainable Transportation at the University of Winnipeg. The listing below of the people who kindly provided input implies no responsibility of any kind for what is in the document. In almost all cases, input was provided as individual opinions. For information purposes only, we have noted affiliations *at the time the input was provided*. Input was provided as early as 2007 and some affiliations may well have changed.

If errors or omissions are discovered in this list, we will be anxious to make corrections. Please see the front page of this document for contact information.

Vicki Asu Environmental Issues Coordinator Manitoba Lung Association	Glenn Cuthbertson Director, Traffic Engineering Manitoba Infrastructure and Transportation
