**This portion must be filled out by the Composting Program Leader**  
*(the teacher or staff person that will oversee the composting program)*

Name: \_\_\_\_\_

Phone & Email: \_\_\_\_\_

Position:  Teacher  Principle  Support staff: \_\_\_\_\_

Commitment

If our school is one of the 5 lucky winners of the video contest, I agree to be the Composting Program Leader and oversee the Composting Program from May 2014 to December 2015, maintain communications with Green Action Centre (GA) about the Program, and ensure the school adheres to the following commitments;

- Work with GA to start or expand a school-wide Composting Program, which includes compost bin installation, composting education and maintenance.
- Perform a waste audit at the beginning and end of the program, with the assistance of GA.
- Estimate the amount of waste (measured in 4 litre pails) that is composted each week, use the tracking forms provided and submit results to GA.
- Help promote GA's composting presentations for families and distribute composting information to families. Six families will be selected to receive personalized composting help and start-up kits (composting bin, aerating tool and kitchen scrap pail). More details to be provided at a later date.
- Assist with the distribution of a family composting survey.

I also confirm that the school administration supports this project.
